

Keep the Heat

Are your heating costs too high?

Exhibition and Independent advice on cutting your energy costs

**10am – 1.00pm,
Saturday 16th November
Ixworth Village Hall
High Street, Ixworth
IP31 2HH**

How we can help?

Green Ixworth is partnering with Suffolk Climate Change Partnership (SCCP) and West Suffolk Council to provide a community energy event covering Western Suffolk to promote better insulation and energy efficient devices.

We can show through heat maps where your heating is being lost and advice on potential solutions using Local Authority grants, loans and subsidies. This applies to both house owners and tenants.

After a welcome from Peter Prinsley MP, there will be a brief presentation. After that it is your turn to quiz the experts at a number of stalls addressing:

- Insulation
- Heat pumps
- Alternatives to heat pumps
- Solar Power and batteries
- Electric vehicles and charging
- Listed and conservation area buildings
- Grants, loans and subsidies
