Covid-19 Vaccination Information

WEST SUFFOLK ALLIANCE
about people & places

The Suffolk and North East Essex Integrated Care System has launched a Covid-19 vaccine website that provides a range of information about the vaccination roll-out, links to local networks, and organisations and a detailed set of FAQs. It also contains information about the vaccination delivery sites across Suffolk and north east Essex, maps highlighting their locations and local case studies. The website address is sneevaccine.org.uk

The Covid-19 vaccine is our best defence against the virus, alongside effective social distancing, wearing a mask and washing our hands. Getting vaccinated will protect you, and may also help to protect your family, friends and patients from the virus.

The vaccine has been developed and approved following a number of clinical trials involving thousands of people across the world. It has also undergone mandatory safety tests to ensure it is safe.

It is given in two doses by your local NHS service. The doses will be given up to 12 weeks apart based on updated guidance from the UK's chief medical officers.

Alternatively, the SNEE vaccine website can be accessed by scanning the QR code below:

NHS staff have recorded messages in some of the most commonly spoken languages – apart from English - to help reassure communities that Covid-19 vaccines are safe, effective and have been independently tested to the highest standards. These are available in the following community languages:

Arabic	Polish	Swahili
Bengali	Punjabi	Turkish
Gujarati	Romanian	Urdu
Igbo	Somali	Yoruba
Nepali	Spanish	

The website for these resources is:

Because...
"It makes me feel protected. I am looking forward to getting my second one."
Bob from Suffolk
I'VE HAD MY COVID VACCINATION
AFTER YOUR VACCINATION   STILL APPLIES TO SAVE LIVES

Because...
"I want to protect myself and my patients, and when it's safe get my children back to school and see family and friends."
Zohra from Suffolk
I'VE HAD MY COVID VACCINATION
AFTER YOUR VACCINATION   STILL APPLIES TO SAVE LIVES

If you had a problem with your car, you would speak to a mechanic.

If you had a leaky tap, you would speak to a plumber.

If your cat was unwell, you would speak to a vet.

So if you have questions, concerns or want information about the Covid-19 vaccine, **speak to a medical professional.**
