

WPC.EC.23.04.04 – Replacement of Marker Posts

Replacement of Marker Posts – Six Acres

The Estates Committee is responsible for the grounds maintenance of greens and open spaces, including Six Acres.

As part of his regular inspections Cllr Merritt has identified that the six white wooden posts to the south of the Tennis courts have deteriorated to the point where they need to be replaced (they have been re-painted in the past, but are now rotten).

The clerk has identified a number of options (attached as Appendix A) and summarised below:

Item	Cost	Notes
Linkind 4-Pack Solar Mothion Sensor	£26.66 plus VAT (pack of 4)	Solar Powered – accessible, motion sensor, easy to install, can also work as wall lights
SolarCentre London XT	£29.16 plus VAT (pack of 2)	Solar powered, easy to install, but no motion sensor
Mini London Solar Powered outdoor	£22.49 plus VAT (pack of 8)	Solar and battery powered, greater contrast for visibility night and day

There may be a slight risk that posts could be removed, but they would provide better visibility throughout all lighting and therefore reduce risk of trip hazard to individuals with limited vision or accessibility issues.

There are two relevant powers for the parish council:

- Parish councils Act 1957, s.3; Highways Act 1980, s.301 - Power to light roads and public places in the council's area.
- Public Health Act 1875, s.164 - Power to provide and manage recreation grounds, public walks, pleasure grounds and open spaces.

The approved budget makes provision for revenue spending of up to £500 for Six Acres in the current financial year (2023/24)

Action:

Identify style of post light

Recommendation:

To authorise the cost of purchasing solar post lights for Six Acres at a cost of not more than £100.00 plus vat.

Colour Name: **Warm White**

Brand	Linkind
Colour	Warm White
Light fixture form	Path
Room type	Outdoor
Product dimensions	10L x 5.8W x 4.8H centimetres

About this item

- **[Super Bright & PIR Motion Sensor]** Built-in PIR sensor, Linkind solar pathway lights have 120° detection angle and 20ft sensing range, which can triggered by human, animals, cars and not by wind, rainwater or frost. Each solar path light has 27 high-quality LED chips, which can increase brightness and illumination range.
- **[2 in 1 Solar Stake& Fence Light]** This solar driveway light can be installed in two ways: Ground Inserted and Wall Mounted. It's a perfect choice to light up pathway, walkway, garden, driveway, fence post, step, deck, railing, backyard and patio. The 3000K warm white solar powered landscape path lights can light up and decorate your house.
- **[IP65 Waterproof & Withstand All Weather]** Linkind outdoor solar garden lights use IP65-more advanced sealing and waterproof tech, no worries about heavy rain or snow. solar outdoor light can meet all kinds of outdoor environments to ensure long-term lighting use.
- **[2 Working Modes & Longer Lasting]** Mode 1: short press once, it turns into full light when motion detected, 25s after no motion, it will switch to half-bright until daytime. Mode 2: short press it again, the light stays full bright when motion detected but turns off after 25s with no motion. Linkind solar stake lights adopt upgraded solar panel and a large-capacity battery with conversion rate up to 22%.
- **[Easy to Install & Warranty]** Linkind waterproof solar pathway lights are designed wirelessly. It's ideal for places without power outlets. You can use it as a pathway stake light by inserting it into the ground, or take it as motion sensor security wall light by mounting it on the wall. We provide one-year warranty, and prompt technical support.
