Chapel of Rest

At its February meeting (Min. 25.02.09.3 refers) the parish council resolved to take up a three year undertaking for Parish Insurance with Gallaghers (Insurance schedule attached as Appendix A).

This insurance cover takes effect from 1^{st} April 2025 and will be renewed annually in 2026 and 2027.

There are a number of clauses in the insurance schedule which have a bearing on cover for items stored in the Chapel of Rest:

Clause 240.3 Minimum security condition

We will not make any payment for **damage** unless the physical security measures at the **insured location** comply with the following criteria and all devices are put into full and effective operation whenever the premises are closed for business or left unattended:

- 1. The final exit door is secured by:
 - a. a rim automatic deadlock conforming to or superior to BS3621; or
 - b. a mortice deadlock conforming to or superior to BS3621; or
 - c. a key operated multi-point locking system having at least three locking bolts.
- Any other external door or internal door providing access to any part of the building not occupied by you, which is not officially designated a fire exit by the local fire authority, is secured by:
 a. a locking device specified in 1 above; or
 - b. by two key operated security bolts to engage the door frame.
- 3. Any other external door or internal door which is officially designated a fire exit by the local fire authority is secured by:

a. a panic bar locking system incorporating bolts which engage both the head and sill of the door frame; or b. a mortice lock having specific application for emergency exit doors and which is operated from the inside

by means of a conventional handle and/or thumb turn mechanism.

Please note:

(i) The local fire authority must be consulted before **you** replace or augment the existing locking device fitted to a designated emergency exit door;

The Chapel of Rest doors are secured by:

c. a key operated multi-point locking system having at least three locking bolts.

And should therefore be compliant, but we must ensure that all three locks are engaged.

During the process of seeking quotes, the clerk noted that at lease one insurance underwriter was seeking NICEIC electrical certification for the Chapel of Rest. It may be prudent to budget for an assessment and any necessary works to ensure that the Chapel of Rest wiring meets this standard before seeking new quotes in 2028.

The last valuation of the Chapel of Rest and the War Memorial was undertaken in June 2020, and a further assessment is therefore due under the terms of the parish council's Asset Valuation policy.

For consistency, the clerk has sought a quote from the previous supplier RebuildCostAssessment.com who have advised that a desk top assessment (suitable for the purposes of insurance) will cost \pounds 166.46 plus VAT.

Powers:

Local Government Act 1972, s.111 - Power to do anything that will facilitate, be conducive to or incidental to the discharge of its powers and functions.

Funding

Services & Supplies £750.00

Recommendation:

The Estates Committee authorise the cost of a desk top Rebuild Cost Assessment for the Chapel of Rest and War Memorial at a cost of £166.46 plus VAT.

Property – co	ontents clauses in full	
Clause	240.3	Minimum security condition

We will not make any payment for **damage** unless the physical security measures at the **insured location** comply with the following criteria and all devices are put into full and effective operation whenever the premises are closed for business or left unattended:

- 1. The final exit door is secured by:
 - a. a rim automatic deadlock conforming to or superior to BS3621; or
 - b. a mortice deadlock conforming to or superior to BS3621; or

C.	a key operated multi-point locking system having at least three
	locking bolts.

- Any other external door or internal door providing access to any part of the building not occupied by you, which is not officially designated a fire exit by the local fire authority, is secured by:
 - a. a locking device specified in 1 above; or
 - b. by two key operated security bolts to engage the door frame.
- 3. Any other external door or internal door which is officially designated a fire exit by the local fire authority is secured by:
 - a. a panic bar locking system incorporating bolts which engage both the head and sill of the door frame; or
 - b. a mortice lock having specific application for emergency exit doors and which is operated from the inside by means of a conventional handle and/or thumb turn mechanism.
